Mr Jeffery Carter.  
Follyfoot House  
75, Bowden Road  
Templecombe.  
BA8 0LF

18/01/20.

Dear Sir,

With reference to application 19/03416/OUT. As a resident of Templecombe I feel it necessary to express my concerns regarding the safety of pedestrians and residents of Templecombe.. Highways have acknowledged that there is a problem by installing an ineffective traffic calming system. The inadequate road width coupled with boundary walls built on carriageway allow no possible alternative for improvement. The development of Manor Farm can only compound traffic problems. The lack of pavements for the safe passage of mothers with children and the elderly being an issue. Increased traffic causes pollution and damage to the delicate lungs of children and our environment Visibility for pedestrians is extremely limited due to the twist and turns of the narrow carriageway on the main road. An increase in our population will come with more cars on roads that are already busy and at times dangerous. Therefore this development should not be approved.

Yours Sincerely,

Jeff Carter.
