PLANNING APPLICATION NO 19/03416/OUT.

Dear Mr. KENYON.

I am writing to you with regard to the above REG NO. I live in the middle of the village where the road is very narrow, as in several other places through the village, so there is no way a footpath would help, in fact it would make it even more dangerous, and the thought of parents and children going to school each day fills me with horror.

I was brought up in the village and over the years the amount of traffic coming through the village is dangerous, and we have to dodge the traffic by using people's driveways because there isn't enough room for them to pass one another.

Secondly there are already many houses in
Templecombe which are unsold, There also a
medieval site dating back to the 11th century
and a world famous head of chest in the
church which attracts visitors all year
round. So far sorry to say this is a
rural settlement and lacks facilities and
infrastructure to support further development

Yours sincerely
