MY LETTER, 24 JAN 2020.

19/03416/OUT/DAVID KENYON/ADDITIONAL 07 APRIL 2020

Dear Mr Kenyon.

Thank you for your letter of 07 April 2020 regarding Amended Plans and Additional Information.

This amendment to the original application is welcome, in the fact it under lines the application is not justifiable on the ground that I have highlighted in my original letter of objection dated 24 January 2020. I can see no grounds to support this development, even with this recent amendment.

I note my original letter is not recorded on your website with regards to objections. May I

ask why? I know it was delivered to your mail room at 10:25 AM on 27 January 2020 and accepted by name of Calderbank. Ahead of the objection cut off date of 30 January 2020.

On an additional point, a letter from a Mr J. Grierson is displayed on your website regarding the Manor Farm application. This letter supports the rerouting of a foot path via 'a short length of unadopted road'. I must point out this letter is in error, unadopted road is not correct. This is a private drive and shared by the residents, of which I am one. The residents concerned would NEVER grant access to allow a public foot path. This point needs to be considered

at the determination of the  
Manor Farm Development Application.

19/03416/OUT would be referred  
further with.

With Due Regard.

JULIAN KINGSHOTT.
