Dear Mr D. Keyton

Please excuse the writing paper as I am confined to my house through Coronavirus pandemic Manor Farm Developments Plans.

I have a great concern of the pollution it will cause with 80 extra houses, also traffic into the developments. The High Street on days cannot cope with children going to school as there are no pavements. The school has no parking and the railway has parking but the over spill park in the housing estate across the road. This development should be cut in half from the top where the Barn's are.

Yours Sincerely,

19/03416/OUT.

S.A. HARWOOD.
