RIF. 19/03416/out

Dear Mr. Kenyon, further to the letter I received earlier this month from SSDC I find there is no substantial change to the proposed housing development at Manor Farm Templecombe.

I note communication with Historic England on 23rd April and Highways on 24th April. Neither of these amendments are going to alter the traffic situation.

The village has more than enough new housing.

There has been no answer to the perilous situation of heavy traffic and narrow high street. The high street is not wide enough even for a pavement.

This application is fundamentally flawed and should be removed from any further planning amendments,

Yours sincerely
Emslie.
