Policy ILM12 'Amount and location of new homes' should be reinstated

2. Please outline your comments below (continue on an additional sheet if necessary)

The NPDG promised the residents of Ilminster the opportunity to influence where development sites should be located and the number of homes on each site - this was a major part of the proposed INP. Only one site selection workshop was held, in 2019, and since that date no further site selection workshops were held despite major decisions by the NPDG to revise the site allocation assessment and introduce 'A' sites. Inevitably, major objections to proposals for Shudrick Valley (where the NPDG has disregarded all evidence from the Local Plan and planning appeal inspectors regarding landscape and heritage) were raised by the community at Reg 14 consultation. This resulted in all sites being removed from the INP. The community has now been denied the opportunity to influence where development sites should be located and number of homes allocated on each site - right up to 2040. Decisions will now be made about the future development of Ilminster by the new unitary authority which has only two members representing Ilminster out of 110. Again, this major change to the Plan was made without any consultation with the community. The Plan should not go to Referendum until the policy ILM12 is reinstated based on the Reg 14 community responses. Ilminster residents deserve the right to be fully engaged in the plan making process and truly influence and determine the future development of the town to safeguard the areas which are of special importance to the community. The INP should protect areas like Shudrick Valley. The evidence from the Local Plan Inspector and Planning Appeal Inspector regarding Shudrick Valley has been ignored throughout the NP process by the NPDG. Shudrick Valley should not be developed but should be offered protection through the Neighbourhood Plan for future generations to enjoy the beautiful landscape and historic setting, with abundant wildlife.

3. What Changes would you suggest should be made to the Plan?

ILM12 development sites policy should be re-instated based on the responses made by the community during Reg 14 consultation. Shudrick Valley should not be developed but protected by the INP.
